Career Objective

- Aspiring cybersecurity professional with a foundation in networking fundamentals and Python/Linux, aiming to build secure, reliable systems and grow into a career in Blue team and threat detection.

Work Experience

- **Full-Stack Developer**| Codec Technologies (1 Month, 2026)
  - Gained hands-on exposure to **Full Stack Development** workflows, including security monitoring and threat detection fundamentals.
  - Worked on **Python**, networking, and **Ai** projects, applying problem-solving skills to practical security-adjacent tasks.

Key Projects

- **AEGIS-GATE** GitHub | (2026)
  - Built a network firewall system to monitor and filter network traffic using configurable security rules.
  - Developed a web-based interface to visualize and manage firewall activity and security events.
  - **Tech Stack:** Python, React.js, JavaScript, Linux, Docker, Networking
- **VEYLORA** GitHub | (2026)
  - Built a cybersecurity platform to analyze suspicious emails, messages, URLs, images, and QR codes and generate explainable 0–100 risk scores.
  - **Tech Stack:** React.js, JavaScript, AI/ML, OCR, QR Scanner, Three.js, REST APIs

Technical Skills

- **Languages:** Python, C, C++, JavaScript
- **Frameworks & Technologies:** Web Development, React.js, AI/ML
- **Security & Networking:** Networking Fundamentals, Linux Basics, Nmap, Wireshark
- **Other Skills:** UI/UX, Problem-Solving, Communication & Teamwork, Leadership & Time Management

Certifications

- AI/ML Training Certificate . [Platform, Year]
- Python Programming Certificate . [Platform, Year]
- C & C++ Programming Certificate . [Platform, Year]
- JavaScript & Web Development Certificate . [Platform, Year]
- UI/UX & React.js Certificate . [Platform, Year]

Interests & Extra-Curricular Activities

- Interests: Cybersecurity, Artificial Intelligence & ML, Networking, Technology & Innovation
- Taught students AI/ML fundamentals and analytics as part of a peer-learning initiative.
- Practices gym training, weightlifting, and calisthenics.
